The Vacandy of Supervising Archi

WASHINGTON, Sept 21. A statement is made at the Treasury department that it will be a month or six weeks before Scoretary Caribial tills the vacancy caused by the enforced resignation of Supervising Architect O'Rourke, and that when he does make the appointment the new architect will go into a thoroughly re-organized office, with the solentific and technical branches of work segregated from purely administrative solealithe and technical branches of work segregated from purely administrative branches. This will be a departure long contemplated by Secretary Carlisle, as the principal source of trouble in the architect's office during former and present administrations has been the clash between the scientific and non-secretific branches of the office.

chash between the scientific and non-scientific branches of the office.

The architect's duties in the future will be confined as much as possible to the purely scientific and technical branches of the work, such as engineer-ing, diafting, construction and iepair work, while the administrative branches of the office, such as the awarding of contracts, the accounts division and the clerical work will be under the super-vision of the Secretary of the Treasury Gave Up the Scheme

I TITLE ROCK, Ark, Sept. 21. As the
last smoke of the recent rullroad strike
dies away another ominous cloud appears on the horizon. Since Saturday

of being implicated in the strike and
expressing sympathy with it

There are said to be 25 more names on

The majority of the men refused to go out in the last strike, but some of them had casually expressed symputhy with the strikers and for this reason are being decapitated. Chairman Quigg's Speech

Congressmentemuch trigg who was temporary charmen of the New York Pepublicat State convention made a speech which according to report was punctuated with at plause. Well it de served to be if one may judge from the reading of it for the speech reads like one of Congressman Quigg's editorials which used to so delight the stalwart Legublican readers of that stilwart Republican journal the New York Irdina His closing sentences in condemnation of the Democracy of New York will arouse the honest men of the Lappin. State to repeat the rebuke of 1893

in the nation said Mr Quigg, ' the Democratic party stands for Incompetency, sectionalism and destruction but these are not necessarily faults of the heart. In New York, however, it stands for something even worse. Here it has rused in both State and municipal politics the moral basic. It obtained power by the most shocking crime that can be committed in a free country, the crime of stealing what the people have refused. Justice has not been satisfied by the mere repudiation of the wretched tool through whom the Demogratic conspiracy of 1891 succeeded. Physauthors. of the conspiracy and its chief beneficlaries are to-day misrepresenting New York in the Senate Its principal dethe rewards for, their infamy to its in-struments, and who endeavored td com-mit the people to its justification, sits in the governor's chall alt Albany. The majority of 100,000 with which Maynard was thrown from the high court, was no rea condemnation of him than of the man who put him there."

Senstor Voorhees has had sense enough to keep quiet since he publicly betrayed his committee and his associbeen to commit political hari-karl." Voorhees knows no more about the bisi, now however, than he did when he got up in the Senate and denounced as a statement that over 400 amendments, of course, were reported and adopted

Voorhees now says that the blil "takes \$100,000,000 off the taxes on the necessaries of life and puts that sum upon | the tuxuries " One of the "luxuries" which he says has been taxed heavier is tobacco And yet in Bulletin No 62, Part 1, issued August 28 by the Committee or Figance, of which Mr Voorbees is chairman, the statement is unde and approved by the Treasury Department that the duty on leaf tobacco, not stemmed, has bren reduced 25 per cent , on leaf togars and cheruots, 8.89 per cent; on eigarettes and paper cigars, etc., 9 12 pm cent, and on pipes, pipe bowls, atc, 28 of per cent. In no case was there any increase on tobacco. This shows that Chairman Voorbees is just as Ignorant now as before of this wretchedbill What are the ' luxuries on which this

bill increases the taxes? The last page of this committee bulletin gives a list of them, some sixty in number. In the list we had oil soap, wire, umbrellas and parasol ribs brass, sugar and molasses, putenpples, currents grapes, peanuts, cocoanuts, mutton, dressed or undressed meats on which the increase is 100 per cent, knit shirts and drawers, hemp and integarnets, and so on, articles of general use and in no sense luxuries. On cane sugar the statement puts the increase There is not a family in the United States that will not feel that blow. Here ar some of the 'necessities on which Voorbees says the daties have been reducid Statuars and palntings, 100 per cent, shoulds, 71 fl per cent, velvets, is spiricut playing cards, 12 60 per cent illrectackers, (6 per cent , brandy is precent cordials, liquors, absinthe. etc 25 01 per cent beer, 5 per cent . rum 33 per cene , jewelis, 10 per cent laces 16.6" per cent, and so un including Scotch whiskey about which Mi Sportices is supposed to know some time

riess was accused of the larceny of 88 Goetling found him guirty and sentenced him to prison for two years and to pay a fine of \$7.00 or stay in prison 7.10 days. As Hess is a poverty-stricken man his sentence amounted to one of imprisonment for four years for sibuling \$8.

The commitment showed that he was statemed under section 50 of the ende of criminal procedure which were repealed by the laws of 1891.
